AT 1.2 MILLION

Enter the sinister 3D realm of Mortal Kombat 4. MK4 is the first fighting game to feature true weapon combat, where players battling hand-to-hand can decide to use their unique weapons at any time. These interchangeable weapons can then be picked up, dropped, or stolen by opponents. With the introduction of this revolutionary feature, MK4 has taken fighting games into a whole new dimension.

Powered by Midway's exclusive new ZEUS chip, MK4 delivers 12 million four-sided polygons per second, making it more realistic than anything you've ever seen.

- MK4 includes new fighters for a total of 15 selectable characters including 3 hidden characters
- More polygons, the addition of weapons, and lightning-fast response times make for stunning realism
- Characters retain combinations from previous MKs and have new sets of moves to learn
- Also available in 39" cabinet!
